Definition of Qualifications

- 9.02 Qualifications of an employee shall be defined as ability, skills, experience, physical fitness and job performance.

Also refer to the "Definitions" page.

A former nonprobationary employee who is rehired shall be considered probationary until the employee has completed a period of four hundred and eighty (480) hours worked.

The terms of the Agreement shall apply to all probationary employees except that probationary employees may be terminated for lesser cause. Lesser cause shall mean that, in the Company's opinion, the probationary employee's job performance or suitability to the job is unsatisfactory.

Probationary employees shall be eligible to receive benefits under the benefit plans referred to in Articles 20 and 21.

Loss of Seniority and Employment Rights

9.04 An employee's seniority and employment rights shall be considered lost by reason of:

This period may be extended by mutual agreement between the Parties on application by the employee, supported by medical information stating that there is an expectation of recovery and return to work within a reasonable period of time.
- h) If an employee does not return to work within three (3) consecutive scheduled working days without notifying the Company and furnishing an acceptable reason for the absence after the expiry of a leave of absence granted under Article 19, except as is provided in 9.04 g) immediately above.

Promotion from the Bargaining Unit

- 9.05 a) An employee who is promoted to a position out of scope shall maintain *but not* accumulate seniority for a period of *six (6)* months from the date of the promotion. During the six (6) month period, the Company may return the employee to their former in-scope position. The employee shall also have the right to return to their former in-scope position within the time limits. At the end of the six- (6)

month period, the employee shall lose all seniority rights within the Bargaining Unit.

When the Company promotes an employee, they will within two (2) working days provide to the Union in writing the name of the employee, the position they are being promoted to and the effective date.

In the event the employee returns to an in-scope position, the employee shall pay back union dues for the period they *maintained* seniority.

Transfer from Bargaining Unit

- b) i) Employees in scope may be temporarily transferred out of scope for up to ninety (90) days to replace first-line supervisors who are absent from their regular duties. Employees will continue to accumulate seniority and will be required to submit union dues.
- ii) *Step-Up* supervisors will not be used during periods of temporary layoff unless their seniority allows them to retain a position. The position vacated by the in-scope employee who is transferred out of scope during any period of temporary layoff will be filled by another qualified, in-scope employee recalled from layoff.
- iii) *Step-Up* supervisors will not be used during periods of vacation shutdown, unless mutual

agreement has been reached between the Company and the Union.

Article 9.05b)- Transfer from Bargaining Unit

- v) The above time limits may be extended by mutual agreement between the Parties.
- vi) The Company shall furnish the Union, *and the Union's Chief Stewards*, with a list of names of *Step-Up* supervisors upon request. The list of *Step-Up* supervisors may change from time to time as may be deemed necessary by the Company. At any one time this list shall not exceed a total of *fifty-one (51)* in-scope employees.
- vii) The Company shall on a monthly basis supply to the Union a list of hourly employees who have worked as *Step-Up* supervisors and the number of hours they have worked in that capacity.

Article 10.01- Layoffs

layoff and to work out procedures for the layoff on the basis of seniority and qualifications.

A) Permanent Layoffs

- 1) A permanent layoff is defined as one whereby an employee or employees are laid off for an indefinite period of time when the Company reduces the number of employees employed by the Company.

Employees affected by a layoff will be laid off in reverse order of company seniority.

An employee subject to a layoff shall receive written notice in advance of the layoff or pay in lieu as follows:

 - iii) Seniority shall be maintained but not accumulated during this period.
 - iv) This period may be extended by the mutual agreement between the Parties.

- b) The laid-off employee shall be able to use seniority accumulated up to the point of layoff to bid on any job posting.

It will be the laid-off employee's responsibility to know what job bids have been posted.

3) Layoff Procedure

- a) Layoffs will be made on the basis of seniority. The most junior employee(s) in the classification within the department affected will be given written notice of layoff. Those employees must indicate within two (2) working days whether they wish to bump or accept layoff. The

Company will provide affected employees with bumping options. Those employees will then have up to two (2) working days to displace a junior employee in any classification and/or crew for which they have maintained the necessary qualifications to perform the work. Should the employee bump someone who is not the most junior, the Company will lay off the most junior employee in that classification on that crew. No employee will be displaced from their current position unless they are the most junior employee in that classification on that crew. This procedure will continue until the most junior employees in the classifications concerned are laid off.

The employee will assume the days of rest under the schedule of work they assume, and if required to work on these days, they shall be paid at overtime rates.

Article 10.01A)3)d)- Permanent Layoffs – Layoff Procedure

- e) The Company will grant a period of familiarization or retraining of up to six (6) regular shifts worked for the employee to show that they have maintained the necessary qualifications of the job. This familiarization period can be extended by mutual agreement between the Parties.

Recall rights will be satisfied when the employee returns to their former permanent classification and department.

Excluding day shift jobs, employees who have been recalled to their former permanent classifications will have the option to accept the new department as their permanent department. Once this option has been selected, the employee's name will then be removed from the recall list.

The employee's name will be deleted from the recall list when they are the successful bidder to a permanent job posting.

- i) When a displacement of any employee takes place because of layoff or reclassification and the displacement results in a change of shifts, the affected employee shall not be eligible for overtime rates on their days of rest under their previous schedule unless they work in excess of their previously

A second-step grievance meeting shall be held at a time agreed upon by both Parties to discuss all pending second-step grievances. The Company's final answer at Step 2 will be given in a period not exceeding seven (7) scheduled working days of the meeting. If the grievance is not processed by the Union within the time limits provided in the various steps, the

The time limits of Step 1 and Step 2 may be extended by mutual agreement of the Parties.

An employee's normal days of rest will be consecutive unless changed by mutual agreement in specific instances by the Parties.

Article 14.04-Hours of Work

- 14.05 It is understood by the Parties that flexibility is required in the starting time of shifts for production purposes. However, it is agreed that starting times shall not vary more than one (1) hour from the normal starting times. Notations on the posting shall include location and shift times.

The Company will give employees twenty-four (24) hours' notice of any change in the employee's shift schedule.

If less than twenty-four (24) hours' notice is given, the employee(s) affected by the change will be paid two (2) times their regular straight-time rate for all hours worked on the first shift of the changed schedule. This provision is not applicable when a callout runs into the employee's regular scheduled shift. This will be governed by the callout pay provisions.

A change in location does not constitute a change in shift schedules; however, in the event of a change in location, the Company agrees to transport the affected

Article 14.06-Shift Schedules and Changes in Shift Schedules

employees on company time to and from the new location on the first day of the change only.

The Company will not change shift schedules for the purpose of avoiding the payment of overtime.

- 14.07 a) In the event the Company changes an employee's shift schedule, then during the first week of this change the employee's days of rest under their previous schedule will be observed for overtime payment.
- b) Where a crew is affected by a shift change, they will not be entitled to work on their previous schedule's days of rest in the first week of the change except

when requested by the employee(s) to make up lost pay.

- c) This provision is only applicable during the first week of the new shift schedule. It does not apply if a change of shifts is a result of any employee changing status due to promotion, preferential shifts or jobs or when an employee returns to their original shift schedule after a temporary transfer.
- d) This provision shall not be applicable when due to breakdown of equipment or reasons unforeseen to management cause a shutdown of normal operations and when management offers the affected employees other work rather than invoke the layoff procedure.

Shift Starting Times

- 14.08 a) The normal shift hours for those employees working an eight- (8) hour day shall be:
- 7:00 a.m. - 3:00 p.m.

 - b) Employees working a twelve- (12) hour shift, for work performed in excess of twelve (12) hours in any one workday.

Article 14.09-Overtime Pay

- 14.10 An employee will be paid two (2) times their regular straight-time hourly rate of pay for hours worked:
- a) on designated holidays,
 - b) on scheduled days of rest and
 - c) as provided for in 14.07.

The above will not apply where an employee is called out to work and works continuously into the beginning of their next scheduled shift. This will be governed by the callout provisions.

Pyramiding

- 14.11 Payment of overtime work shall be made as in 14.09 or 14.10, whichever gives the employee the greatest pay. There shall be no duplication of weekly and daily overtime nor pyramiding of overtime on overtime.

Overtime Work

14.12 The Company will offer overtime as far in advance as possible. All overtime is voluntary except as noted below.

Employees may be required to work overtime in an emergency situation.

Shift employees regularly scheduled to work an eight-(8) hour shift on a maintenance shutdown day *may* be required to work for twelve (12) hours when the Company elects to operate on those days, provided twenty-four (24) hours' notice is given.

In the event that the Company elects to only have a portion of the crew work a twelve (12) hour shift, then

Article 14.12- Overtime Work

they will offer the four (4) hours overtime in the following order:

- *Offer the overtime to qualified employee(s) on the crew concerned in the order of lowest to highest on the overtime distribution list.*
- *Assign the junior qualified employee(s) on the crew concerned.*

Overtime that is not of an emergency nature will be offered to the employees on the shift who normally perform the work. If the employees on the shift decline the overtime, it will be offered to other qualified employees within the department.

Overtime Meals

- 14.13 If overtime work is expected to be more than two (2) hours in duration, the employee(s) affected will be supplied an overtime meal at their regular quitting time, if practical, and approximately every four (4) hours of work thereafter.
- 14.14 In the case of unscheduled overtime, the Company will supply transportation from the plant site to the employee's home where they have no other means of transportation available or if requested by the employee.

When a carpool driver is required to work unscheduled overtime, the Company shall supply the members of the carpool who are not required to work overtime with transportation to their homes if there is no other means of transportation available or if requested by any member of the carpool.

Overtime Distribution

- 14.15 a) Brine Inflow Control employees in the classification of Miner Operator, Extensible Belt Operator, Scoop Tram Operator, Loader Operator and Shuttlecar Operator will be considered as one classification for the purpose of overtime allocation.
- b) Overtime will be distributed among the employees from the department who occupy the classification that normally performs the work.
- c) If those employees who are first entitled to the overtime are not available or decline the overtime, then qualified employees in the next lower line of progression will be asked to work the overtime. If these employees decline, then any qualified

employee within the department will be asked to work, based upon the balance of overtime.

- d) Overtime that occurs because the job carries over the regular shift will first be offered to the employees who worked on the job. If they decline, then any qualified employee within the department will be asked to work, based upon the balance of overtime.
- e) If the Company errs and an employee from the wrong classification works overtime, the Company will allow the overlooked employee to work the missed time at overtime rates at a time convenient to the employee, unless the time chosen is totally impractical to the Company. The work assigned as work-in-kind will not be work that would normally result in a different employee being asked to work

Article 14.15e)- Overtime Distribution

overtime; i.e., the work-in-kind will not cause another employee to miss an overtime opportunity.

- f) This Article does not assume that each employee sharing overtime within a particular area and shift will, at any given time, have worked the same number of overtime hours but merely expresses the policy of the Company to keep overtime as nearly in balance as is practicable.
- g) If an employee is absent from work for one or more days during the employee's regular schedule, the Company will not be obliged to call that employee for overtime work on his or her next scheduled days off. For the purposes of determining whether an employee will be

called, absences from work shall not include the following:

- i) Pre-authorized vacation
- ii) Bereavement leave
- iii) Jury duty leave
- iv) Authorized union leave

An employee who is absent during his regular schedule will be placed at the bottom of the Overtime Distribution List. However, if an employee is called for overtime by the Company despite an absence from work, and works that overtime, the employee shall receive overtime rates for the hours worked as per Article 14.10.

Lists

- 14.16 Up-to-date lists showing how overtime has been allocated within the particular group in the area on the

Article 14.16-Lists

shift shall be maintained by the Company and shall be posted. If an employee refuses the opportunity of working an overtime assignment, it will be considered as an overtime opportunity worked and so recorded. The recording of overtime worked shall be done utilizing a "moving twelve-month time frame" with the thirteenth month dropping off as a new month is added.

The Company will furnish to the Union a copy of the overtime list as posted.

Maintenance of Balance of Overtime

- 14.17 If a balance of the overtime hours worked among a group which normally shares overtime work is not properly maintained because of improper allocation and a grievance is filed, and as a result an employee'(s')

case is proven, then the off-balance overtime condition shall be identified and the imbalance corrected as soon as practical until a fair balance in the overtime distribution is re-established.

Callout

14.18 If an employee who has left the company premises is called out to work outside their regular hours, they shall be guaranteed a minimum of four (4) hours' pay at two (2) times their regular straight-time rate. Employees called out shall not be required to perform routine work after they have completed the work for which they were originally called out, except that they may be required to perform emergency work consistent with their skills and arising during the period of the callout.

In the event an employee on a callout actually works four (4) hours or more in the eight- (8) hour rest period

Article 14.18 - Callout

immediately preceding the start of their next shift, they shall have the starting time of their next shift adjusted to provide for eight (8) hours' rest, after which they will receive a normal day's pay.

Should the callout require the employee to work up to the start of their next regular shift, they will be permitted to remain at work at straight-time rates until they have accumulated the balance of hours normally worked on a regular shift (i.e., 8 or 12 hours). The employee will then be allowed to go home but will be paid at straight-time rates for the remainder of their regular shift.

Day shift employees who are called out to work between the hours of 11 p.m. and 5 a.m. and who do not receive eight (8) hours' rest prior to the start of their next shift will be allowed to remain at rest for eight (8) hours. Employees will then be required to work the remainder of the next scheduled shift; and if they complete the shift, they will be paid for the full shift.

In the event an employee is required to return to work for one (1) hour or less after receiving eight (8) hours' rest as referred to above, they shall be allowed to work the period of one (1) hour or less at straight-time rates at the beginning of their next scheduled shift. An employee who has worked sixteen (16) hours in the previous twenty-four (24) hour period will be granted their next scheduled shift off with pay at their regular straight-time rate.

Reporting Pay

14.19 When an employee reports for scheduled work that has been cancelled without notification to the employee, they will be provided with work or pay equal to the hours scheduled. They shall perform duties as assigned for this period. If work cannot be made available, the employee will not be required to stay at work and will receive straight-time pay equivalent to the hours of the scheduled work. An employee who has no phone or an incorrect phone number on file shall be deemed to have been given notice of cancellation.

Shift Relief

14.20 No employee assigned to a rotating shift or continuous operation shift shall leave at the end of the shift until their relief reports, unless released by their supervisor.

General (All Employees)

- 14.21 An employee who worked half their rest hours or more in the rest period immediately preceding the start of their next shift shall, at the request of the employee, be given the shift off without pay.

Overtime While on Bereavement Leave or Vacation

- 14.22 a) Employees who are on bereavement leave are not available for overtime except to prevent a mine or mill emergency (e.g., power failure where nobody else is available to restore power). The following guidelines will apply:
- Employees who take one or more days of bereavement leave are not available for overtime until the beginning of their next regularly scheduled day of work.

Article 14.22a)- Overtime While on Bereavement Leave or Vacation

- The employees' supervisor is responsible for informing dispatch or the shift supervisor when their employees are on bereavement leave and not available to work overtime. Employees who are unavailable should not be called to work overtime. Employees will not be recorded refusals for overtime opportunities that occur while they are not available.
- Dispatchers or shift supervisors are responsible to ensure that employees are returned to "available" status after the bereavement leave has ended.

Situations will occur where supervisors calling out employees for overtime may not always know who is on bereavement leave. Employees who are called in error have a responsibility to tell the supervisor

calling that they are on bereavement leave and thus not eligible for overtime.

b) Employees who are on vacation are not available for overtime except to prevent a mine or mill emergency (e.g., power failure where nobody else is available to restore power). The following guidelines will apply:

- Employees are considered to be unavailable for overtime until 24 hours have expired after the beginning of the last scheduled day of vacation.
- The employees' supervisor is responsible for informing dispatch or the shift supervisor when their employees are on vacation and not available to work overtime. Employees who are unavailable should not be called to work

overtime. Employees will not be recorded refusals for overtime opportunities that occur while they are not available.

- Dispatchers or shift supervisors are responsible to ensure that employees are returned to "available" status after the 24-hour window has expired.

Situations will occur where supervisors calling out employees for overtime may not always know who is on vacation. Employees who are called in error have a responsibility to tell the supervisor calling that they are on vacation and thus not eligible for overtime.

ARTICLE 29 - COMPLETE AGREEMENT

- 29.01 This Agreement contains the complete understanding between the Parties for the term of this contract. Any additions, deletions, changes, amendments or waivers affecting the terms of this Agreement shall only be discussed by mutual agreement of the Parties. Any agreements, amendments, or changes arrived at as a result of discussions shall become effective upon being reduced to writing and signed by the Parties.

ARTICLE 30 - DURATION OF AGREEMENT

- 30.01 This Agreement shall be binding upon the Parties from the 1st day of February, 2016, and shall remain in effect through the 31st day of January, 2019, and from year to year thereafter, but either Party may, not less than thirty (30) days or not more than one hundred and twenty (120) days prior to the termination date, give notice in writing to the other Party to terminate or negotiate revisions to this Agreement.
- 30.02 At the first meeting for commencement of negotiations, both Parties shall submit their proposals in writing.
- 30.03 Negotiations are to commence within thirty (30) days' notice for a revision of this Agreement or for a new Agreement.

ARTICLE 31 - TECHNOLOGICAL CHANGE

31.01 In recognition of the spirit and intent of the *Technological Change provisions of the current labour relations legislation for the Province of Saskatchewan*, the Parties will provide through the format of this Agreement an orderly procedure to deal with the effect of a technological change within the meaning of *that legislation*. If as a result of a technological change within the meaning *set out in the legislation*, job classifications are changed, job classifications are combined and/or new job classifications are established, they will be dealt with under the provisions of Article 16.

Interpretation of "significant numbers" in the *current labour relations legislation for the Province of Saskatchewan* shall mean one (1) or more persons in all cases.

31.02 Procedures for the aforementioned are:

a) Notification

The Company will notify the Union of a technological change at least ninety (90) days prior to the date on which the change is to be effected and notice shall be in writing and state:

- i) the nature of the technological change,
- ii) the date the Company proposed to effect the technological change and
- iii) the names, seniority dates and classifications of the employees primarily affected.

b) Employee Rights

An employee displaced as a result of a technological change will exercise layoff rights under Article 10.

c) Cooperation With Human Resources Development

Canada

- ii) Reductions in the work force as a result of production requirements solely are not subject to this Article and *current labour relations legislation for the Province of Saskatchewan*.

Computers

31.03 It is recognized that the use of computers in the workplace will continue to grow. It is inevitable that some restructuring of jobs and job descriptions will occur under Article 16. It is not the intention of the Company to make changes associated with computerization which would have as their purpose the replacement of in-scope employees with out-of-scope employees. It is also understood that the use of computers from time to time by out-of-scope employees does not constitute the performing of work in the exclusive domain of in-scope employees.

This Agreement shall not have any effect on out-of-scope employees who use computers in the normal

course of their job to do work that is normally not done by in-scope employees.

Employee(s) whose jobs are permanently affected by computerization shall be recognized under this Article.

APPENDIX C
APPRENTICESHIP PROGRAM

A) Purpose

The purpose of the Program is to provide a means of training and developing tradespersons of the highest calibre for Mosaic Potash Esterhazy, further to provide environment and incentive that will assist employees to achieve their maximum potential.

The Program is recognized as requiring the active participation of the Parties, the employee and various levels of government.

B) Coverage

The Program will cover trades designated as necessary or advisable by the Company.

The number of apprentices required for each trade and number of apprentices at each level within each trade shall be determined by the Company. The Company will inform the Union of changes in the number of apprentices at each level of each trade. However, once an employee is accepted in the Program, they will be allowed to progress through the full apprenticeship subject to the provisions of this Program or the terms of the Collective Bargaining Agreement.

C) General

- 1) Standards for entry in the Program shall be determined by the Company in accordance with the provisions of Article 9. Employees who already possess a trade certificate in a job classification listed in Appendix A will not be considered for apprenticeship postings.

Any interviews or examinations in relation to an employee's entry into the Apprenticeship Program or interviews while in

Apprenticeship Program

the Program will be done on company time with no loss of pay. Any preliminary tests conducted by the Company shall only be in relation to the employee's aptitude for their particular trade. The Union may have a representative to peruse the content of the type of tests used.

- 2) The Saskatchewan Apprenticeship and Trade Certification Commission shall determine at what level an applicant fits into the Apprenticeship Program and that is the level at which an applicant will be placed.
- 3) The Company and each accepted applicant shall sign an apprenticeship contract in the form provided by the Saskatchewan Apprenticeship and Trade Certification Commission.
- 4) Employees in the Maintenance Department not participating in the Apprenticeship Program will not be denied promotion, laid off or terminated as a result of the Company posting for an opening in the Apprenticeship Program.

An employee bidding into the Apprenticeship Program in a trade currently being held by said employee shall retain their rate if it is higher until their apprenticeship rate surpasses it, at which time they shall progress to the higher rate.

In the event a maintenance employee enters into the Apprenticeship Program and is subsequently removed from the Program in accordance with this Agreement and their apprenticeship rate is higher than their rate prior to bidding, the employee will revert back to their old job title and applicable rate of pay.

- 5) Employees accepted into the Program will enter into an apprenticeship probationary agreement with the Company for a period of six (6) months. This agreement will be registered with the Saskatchewan Apprenticeship and Trade Certification Commission. If at the end of the six- (6) month apprenticeship probationary period both the employee and the

Apprenticeship Program

Company are satisfied to continue the agreement of apprenticeship, a contract or indenture will be made and registered with the Saskatchewan Apprenticeship and Trade Certification Commission.

The six- (6) month period shall start at the time the employee is transferred into the Program. However, the transfer must take place within thirty (30) calendar days after being awarded the job.

6) The Company and each accepted applicant shall sign an apprenticeship contract in the form provided by the Saskatchewan Apprenticeship and Trade Certification Commission, provided that where the terms of the contract provided by the Saskatchewan Apprenticeship and Trade Certification Commission differ from the terms set out in this Article, the terms of the Agreement shall govern.

7) Rates of Pay:

Apprentice 1 (B) 0 - 6 Months
..... equivalent to Helper rate.

Apprentice 1 (A) 6 - 12 Months
..... equivalent to Maintenance
Tech. V rate.

Apprentice 2 12 - 24 Months
..... equivalent to Maintenance
Tech. IV rate.

Apprentice 3 24 - 36 Months
..... equivalent to Maintenance
Tech. III rate.

Apprentice 4 36 - 48 Months
..... equivalent to Maintenance
Tech. II rate.

- 8) The basis of the pay schedules in 7) is that after the introductory period (Apprentice 1 level) an apprentice will only move to the next pay rate after having the required months of experience and after having successfully completed the course as prescribed by the Saskatchewan Apprenticeship and Trade Certification Commission. In the event the employee attends school before their apprenticeship anniversary date and passes, they shall only receive the increased rate when they have the required time; and, conversely, if the employee attends school after their apprenticeship anniversary date, they shall be paid retroactively to their anniversary date upon successfully completing school.
- 9) The Company will schedule an approved leave of absence for an apprentice to go to the appropriate technical institute as approved by the Saskatchewan Apprenticeship and Trade Certification Commission.
- 10) While attending formal training, an apprentice will receive their normal weekly earnings (hours worked x hourly rate) plus shift differentials, where applicable. These earnings are limited to eight (8) hours per day and forty (40) hours per week while in attendance at school.

If an apprentice has failed a level and they have to repeat (i.e., go back to school) the level, they shall receive no pay difference from the Company for repeating that level.

- 11) An apprentice may be removed from the training program by the Company or upon request of the employee and have their apprenticeship contract cancelled at any time during the six-(6) month apprenticeship probationary period. If they were a member of the Bargaining Unit prior to their entrance into the Apprenticeship Program, they shall be given rate retention and retain their regular rate of pay from their former permanent classification and department. The employee agrees to accept any position offered by the Company. At the

Apprenticeship Program

Company's discretion, and if available, more than one position from which to choose may be offered. The employee will be placed on the recall list and recalled as per Article 10.01 C) 3).

- 12) No employee will be removed from the Apprenticeship Program without a review of their situation by a joint committee of representatives from the Union and the Company. If there are no reasonable steps that can be taken to help the apprentice, the apprentice may be removed from the Program. An apprentice who has completed the apprenticeship probationary period may be removed from the Apprenticeship Program and the apprenticeship contract cancelled for any of the following reasons:
- a) Just cause.
 - b) If an apprentice fails to take the training course when they are scheduled, provided that their failure to take the course is not due to a cause beyond their control.
 - c) If an apprentice has to repeat (i.e., go back to school) more than one level.

In the event of an employee being removed from the Apprenticeship Program for any reason stated above, the employee shall be given rate retention at their level as per 7) in the Apprenticeship Program at the time of removal.

The employee agrees to accept any position offered by the Company. At the Company's discretion, and if available, more than one position from which to choose may be offered. The employee will be placed on the recall list and recalled as per Article 10.01 C) 3).

- 13) The employee will be paid the journeyman rate of pay when they successfully complete the apprenticeship and/or present their certificate to the Human Resources Department.

The rate of pay will be effective based on the date of examination.

Apprenticeship Program

- 14) For all employees enrolled in the Apprenticeship Program, the Company shall reimburse them for driving their own automobile at the rate of fifty cents (\$0.50) per kilometer to cover one round trip from Esterhazy to the appropriate apprenticeship school, once per week.
- 15) *Upon completion of the apprenticeship program and once journeyperson status is achieved, the employee, by seniority, will be:*

INDIVIDUAL SECURITY ACCOUNT PLAN (ISAP)

1. **Purpose**

The Individual Security Account Plan (ISAP) is designed to assist employees of the Company during times of layoff to allow them to withdraw from their ISAP Account a weekly amount that would supplement their Employment Insurance benefits. The Plan will also allow the employee to contribute to a registered retirement savings plan (RRSP) or a spousal RRSP.

2. **Contributions**

Each employee shall contribute One Dollar (\$1.00) for all hours paid (exclusive of overtime), and the Company shall match the contribution made by the employee. *Any hours where an employee is receiving company-paid short term disability benefits shall not be counted as hours paid for the purposes of ISAP contributions.* The ISAP Account of each employee shall accumulate until a minimum of One Thousand Five Hundred Dollars (\$1,500) is established. After each employee account reaches the \$1,500 level, contributions to the ISAP Account shall be placed in a RRSP or a spousal RRSP.

Contributions from the employee will be by payroll deduction each pay period and will be matched by the Company on the same basis. No part of the Company's contribution under the Plan shall be recoverable by the Company. Company contributions to ISAP will be remitted to the Plan Administrator on a pre-tax basis.

Employees will be allowed to contribute amounts over and above the matched contributions.

3. **Plan Administrator**

- a) All contributions to each employee's ISAP Account will be paid to the Plan Administrator. The Plan Administrator will hold such contributions and interest earned thereon in an account subdivided by employee basic contribution, employee voluntary contribution, employee transferred contribution and employer contribution for the exclusive benefit of each employee.
- b) The Plan Administrator may invest funds. Funds in the ISAP Account may be commingled with each other and with those under any similar plan or plans and treated as a consolidated fund for investment purposes.
- c) The Plan Administrator shall credit net earnings from such investments to the employee's ISAP Account in proportion to the balance in their account from time to time as interest is allocated.
- d) The Plan Administrator, or its duly authorized agent, shall manage and administer the Plan. The Plan Administrator shall have the right to use the Company or any of its employees as its agent. In addition to the powers and duties specified in the Plan, the Plan Administrator shall have such powers and duties as may be provided in the Agreement.
- e) As soon as is practicable after the end of each calendar quarter, the Plan Administrator shall furnish each employee with a statement of the balance in their ISAP Account as of the end of the calendar quarter.

4. **Cost of Administration**

The Plan Administrator shall be paid such reasonable compensation as shall from time to time be agreed upon by the Company and the Plan Administrator. All expenses of the Plan, including reasonable legal fees and the compensation of the Plan Administrator, and all taxes of any nature whatsoever, including interest and penalties assessed against or imposed upon the Plan Administrator or the Plan or the income thereof, shall be paid out of the interest earnings of the employees' ISAP Accounts and shall constitute a charge upon this ISAP Account.

5. **Benefits**

a) An employee shall be an "eligible employee" to receive payment from their ISAP Account for each week they are on layoff provided that the layoff is for a period of a minimum of seven (7) days in that week, due to their being laid off by the Company. Layoff does not include absences from work for disciplinary reasons, strikes, shutdowns, slowdowns, work stoppages, walkouts, lockouts or any other form of work stoppage nor does it include any absences from work due to sickness, injury or leave of absence for any other reason.

b) Requests for payments by eligible employees from the ISAP Account shall be made to the Plan Administrator in writing, on the prescribed form. Each payment shall be in an amount of One Hundred Dollars (\$100) for each week of benefit, unless the balance remaining in the employee's ISAP Account is less than One Hundred Dollars (\$100). The benefit of One Hundred Dollars (\$100) shall constitute one week of supplementary benefit to Employment Insurance and the benefit shall be paid every second week.

- c) An employee shall be an "eligible employee" only if they are a full-time, active employee on the day prior to the layoff taking place or are otherwise entitled to receive Employment Insurance benefits (E.I.) due to disability insurance expiring during the term of their layoff period.

6. **Payout of ISAP Accounts**

All funds in an employee's ISAP Account shall be paid upon request:

- a) to the employee upon retirement,
- b) to the employee in the event of their employment being terminated or
- c) upon the employee's death, to the beneficiary named in the written designation filed with the Plan Administrator prior to payment or if no such designation is in effect, to the employee's estate.
- d) if an employee has been on LTD benefits for a period greater than twenty-four (24) months and/or is not expected to ever return to work as confirmed in writing by the employee's doctor. This would apply to any employee who has no "earned income" for the periods stated above. This would not apply to any employee on short-term disability.

Each employee may designate a beneficiary or beneficiaries with the Plan Administrator to receive the benefits from the employee's ISAP Account upon the employee's death. The employee may change the beneficiary or beneficiaries in writing, at any time.

7. **Registered Retirement Savings Plan**

The Plan Administrator will produce RRSP receipts for all contributions received from the Company on behalf of the employee and employer. Receipts will be produced for contributions made from March 1 to December 31 and January 1 to February 28.

8. **Miscellaneous**

- a) Contributions made to the ISAP Account shall not be included in the base rates for the calculation of benefits and shall not be considered in computing premium pays, shift premiums or any other payment.
- b) No right to the amounts in an employee's ISAP Account shall be subject in any manner to alienation, sale, transfer, assignment, pledge or encumbrance of any kind and in any attempt to alienate, sell, transfer, assign, pledge or otherwise encumber any such benefit, whether presently or thereafter payable. Any attempt or arrangement to do so shall be void.
- c) Any question concerning the administration of the Plan shall be settled exclusively by the Company.
- d) The Company, by payment of its contributions or amounts provided under this Plan, will be relieved of any further liability and benefits hereunder shall be payable only from the employees' ISAP Account.
- e) An "eligible" employee shall mean an active, full-time employee of the Company who has completed 480 hours worked. The provisions of this Agreement do not apply to summer students or part-time employees.
- f) The Company shall mean Mosaic Potash Esterhazy Limited Partnership, Esterhazy, Saskatchewan, Canada.
- g) The Union shall mean Local 892 of *Unifor*.

- h) Employees who are off work during an approved union leave of absence shall have the combined or total contributions to their respective Accounts deducted from their paycheck during the term of such union leave of absence.

This Agreement shall not be renegotiated nor shall any of the provisions be amended without the mutual consent of the Union and Management during the period of this Agreement.

This Letter will remain in effect for the balance of the current Collective Agreement.

The Parties agree that:

Managing and controlling the Inflow areas are critical to the ongoing success of the mine. The Inflow areas can change quickly and without notice so quick response time by Mosaic employees and long-term contractor personnel is very important. 10. *All Materials from 1104 to end destination and used material back to 1104. If the Long-Term Contractor is unavailable Mosaic employees will haul material.*

Should the long-term contractor be required to perform work outside the Inflow area where their expertise is required, they will be treated as a short-term contractor. Some examples may include coring, grouting, and blasting.

If the scope of the work for Mosaic employees and/or long-term contractor employees changes, the Company and Union Executive will meet to determine the appropriate and fair course of action at the request of either Party.

K3 Transition

The Parties agree that Mosaic will voluntarily recognize Unifor, Local 892 as the exclusive bargaining agent for hourly employees working at K3 in positions covered under our current scope clause in Article 3 at a future date to be discussed between the Company and the Union. Once the capital portion of K3 is substantially complete, in the discretion of the Company, K3 will be specifically included in the scope clause of this Collective Bargaining Agreement, and any required amendments to the certification will be completed by the parties. In the interim it is understood that there will be opportunities for Mosaic employees from the K1 and K2 sites to work at the K3 site, depending on the needs of the K3 project, and the ability of K1 and K2 to provide employees. The parties agree as follows:

- 1. K3 is an expansion project that needs to be run as a capital project, which in many ways is different from normal operations. As a result of K3 being a capital project, staffing requirements, up to the time of normal production, where the project is handed over to Mosaic Operations, will be at Mosaic's discretion.*
- 2. Mosaic requires substantial flexibility to operate with fluctuating manpower levels, potentially changing shift schedules and multi-skill job requirements for the duration of the project, including how we select and utilize existing Mosaic hourly employees from K1 and K2. This may involve selecting employees out of line of seniority, to match our needs with the labour supply.*
- 3. Mosaic will make every reasonable effort to begin transferring traditional bargaining unit work to Mosaic hourly employees (e.g. hoist operators, miner operators, tradespersons) as early as 2016, providing the Union cooperates with the flexibility required during the duration of the project. These transfers may*

LOU-K3 Transition

be temporary and in such cases, the terms and conditions will be discussed with the Union. Based on the nature of the K3 project, capital workers and Mosaic employees may be tasked to work closely together.

- 4. Mosaic employees who move from K1 or K2 to K3, during the construction phase will be sharing existing K3 facilities, including the K3 Dry, with the rest of the K3 construction workforce.*
- 5. Mosaic employees who move from K1 or K2 to K3 may be moved back to K1 or K2, respectively, based on Mosaic's labour and workforce needs at K3.*
- 6. Mosaic agrees to meet with representatives of the Union Executive prior to the first employees being sent to K3, and once per month thereafter, to discuss the needs of the two parties and attempt to reach mutually beneficial arrangements.*
- 7. If layoffs should occur, or become necessary, at the K1 or K2 Esterhazy site(s), the Company shall make reasonable efforts to find work for K1 or K2 employees at K3 as an alternative to layoffs.*
